

The World We Create *traveling exhibit*

THE WORLD WE CREATE What a world! Move it, compute it, play it, design it, build it—there's no limit to what you can do in **THE WORLD WE CREATE**. This 2,500-square-foot traveling exhibit from the Louisville Science Center celebrates human ingenuity by giving visitors a hands-on tour of our material world.

A mobile version of the popular permanent exhibit at the Louisville Science Center, **THE WORLD WE CREATE** Traveling Exhibit brings to life lessons in applied science, engineering and

technology. At exciting, interactive stations, experience how human creativity solves problems and advances technology. You're the creative problem-solver, whether you're building a tower that can withstand an earthquake or designing a new kind of bicycle.

Let imagination be your guide through three themes from the manufactured world: *Construction Zone*, *Transit Hub* and *Tech Works*. At each stop, you'll find science is accessible and engaging.

At **THE WORLD WE CREATE** Traveling Exhibit, the created world is at your fingertips. It's for touching and exploring—for discovering just what kind of world you can create!

Louisville Science Center Support:

- Marketing Kit
- Set-up Manual
- Education Materials

The World We Create

traveling exhibit

Science springs to life in

THE WORLD WE CREATE Traveling Exhibit, where concepts of science and technology translate into hands-on, heads-up activities for all ages. Captivating designs, informative graphics, exciting activity stations create this one-of-a-kind experience.

A touchable tour of the wonders we make

WHAT'S IN THE EXHIBIT?

- **Three unique zones** focus on specific themes of engineering and manufacturing.
- **Ten exciting exhibits** offer a broad sampling of invention and ingenuity.

LOUISVILLE SCIENCE CENTER

Construction Zone How do your building skills stack up? Exhibits in this zone challenge would-be engineers to construct block buildings, bridges, domes and arches. A real working construction crane builds up visitor's cooperation and coordination skills.

construction zone

CONSTRUCTION ZONE Exhibits

Build It Up
Building Bridges
Toppling Towers
Engineering Tabletops

Transit Hub Beep beep! Zoom! In this zone, a mix of motion-related exhibits demonstrates the principles of aerodynamics, shows how gears turn motion into energy, and challenges visitors to work together to discover the best way home through a tilting tabletop maze.
