

A Bug's Life, Grades K – 1
Peek at the Week

Observe some of nature's coolest critters up close.

Day 1, What Makes an Insect?: Do you know what an insect is, and how to identify one? Learn the different parts of an insect and observe insects in a natural environment . . . our own backyard!

Day 2, Arachnids: What makes an arachnid? Investigate why we shouldn't stomp on those spiders in our house!

Day 3, Metamorphosis & Life Cycles: Take a journey through the cycle of life! Explore the world of everyone's favorite metamorphic bug: the butterfly.

Day 4, Bugs with Jobs: Do bugs go to work every morning? Discover what kind of jobs bugs have. Ants, bees, and the amazing dung beetle all have specialized roles to perform.

Day 5, Bugs are Everywhere: Need a protein snack? Find out how many bugs we will eat in our lifetime! Feeling sick? See if a bug is behind it.
