

Castles & Catapults, Grades 2 – 3 **Peek at the Week**

Investigate engineering and architecture as we build marshmallow bridges, LEGO Castles and make our own catapults!

Day 1, Castle Community: Join the family by creating your own coat of arms and exploring the many different roles of the castle dwellers.

Day 2, Castle-craze Architecture: Rise to the challenge! Investigate many different types of architecture by creating a castle collage, exploring engineering for the three little pigs, and building a marshmallow bridge.

Day 3, Mythological Creatures & Heroic Heroes: In the world of the unknown, learn about the differences between Dragons and Dinosaurs by assembling dinosaur fossils. Immerse yourself into the storytelling adventures with fact or fiction.

Day 4, Medieval Weapons: Victory!!! A knight has to choose a weapon to ride into battle. Come and learn about all of the different types of weapons used during the medieval times and even make your own catapult!

Day 5, Shipwright: Ahoy Matey! Take a trip across the sea and explore the different parts of a ship. We will also investigate the world on the water as we become wreck detectives and look for underwater clues.
