

### **Larger Than Life, Grades 2 – 3 Peek at the Week**

Have you ever wondered “What is the biggest.....” or “What is the largest.....”? Then this is the camp for you. Discover just how big is big and how large is large!

**Day 1, *Marvelous Measurements:*** How big is big? How large is large? How many spoons tall are you? Learn how to measure the Louisville Science Center, trees and populations without rulers.

**Day 2, *The Big Attraction:*** Examine community attractions, discover how big they are, and what it takes to maintain them. Participants will explore the world’s largest roller coasters, then build their own!

**Day 3, *What Big Animals You Have!:*** Discover how big is really big when it comes to animals. Explore felines, snakes and elephants! End the BIG day in a big way by exploring giants of old.

**Day 4, *Big Bodies of Water:*** Explore the largest lakes, the big rivers and the deep blue. Learn about the big animals that live in the big bodies of waters. At the end of the day, go home with some big fish tales!

**Day 5, *Titanic Technologies:*** Learn how the world is using technology for bigger and better things!
