

Planes and Trains, Grades PreK – K Peek at the Week

Explore with your favorite flying and racing machines in camp that's all about transportation!

Day 1, Trains, Trains and more Trains!: Chuga Chuga Choo Choo! Join us for a day of train-tastic fun! Design your own train, make a train whistle, and make your very own conductor's hat!

Day 2, Planes, Rockets, and Hot Air Balloons: It's a bird, it's a plane, it's the Science Center Junior Aviators learning about all things that fly in the sky! Make paper airplanes and helicopters and watch them fly from our 3rd floor atrium!

Day 3, Bikes, Cars, and Safety: Red light, green light, what do these lights mean? Learn the rules of the road! Scope out the science behind car and bike safety!

Day 4, Trucks and Buses: Beep, beep! Watch the road as we learn about trucks and buses by making transportation shrink dinks, an egg carton school bus, and many other fun activities!

Day 5, Ship and Boats: Ahoy Matey! What sinks, what floats? Will your boat sink, or go down with the pirate's treasure? Today we will have fun making our own boats out of recyclable materials and testing them in our water table!
