

### **Scales and Tails, Grades K – 1 Peek at the Week**

Investigate animal diversity and discover why animals eat, move and live the way they do!

***Day 1, Fish, Cave Creatures, and Insects!*** Campers will explore habitats and animals underwater, underground, and underneath their feet!

***Day 2, Reptiles and Amphibians:*** Campers will experience activities about frogs, snakes, turtles, and lots of other slippery, slimy creatures!

***Day 3, Bird Appreciation Day!:*** Campers will discover what it is like to be a bird, what they eat and how they fly!

***Day 4, Mammals, Mammals everywhere!:*** Campers will learn about mammals in their backyard, their local zoo and all the way to the wilds of Africa!

***Day 5, Endangered Species Awareness:*** Campers will learn about Endangered Species and be a voice for these animals as a junior docent, sharing pictures and information with Louisville Science Center guests!
