

Science of the Strange, Grades 4 – 6 Peek at the Week

Uncover some of science's greatest mysteries as we investigate real-life dragons, mutants, mummies, and the search for aliens—you'll never believe real science could be so bizarre!

Day 1, I Want My Mummy: Come explore the mysteries of mummies by examining the technology that helps us learn more about them and giving a stuffed animal an Ancient Egyptian funeral.

Day 2, Life is Weird: Do mutants really exist? Come find out as you investigate the molecular code of life! Step into the shoes of a geneticist by extracting DNA and engineering your own critter.

Day 3, Here Be Dragons: Ship-eating sea monsters? Fire-breathing dragons? Learn the facts behind the fantasy by reconstructing dinosaur fossils and exploring narwhal habitats.

Day 4, Is Anybody Out There?: How do real scientists search for alien life? Come play a game about extremophiles and explore the mysteries of the ocean depths!

Day 5, Techno-Mania: Cyborgs? Robots? Come build some for yourself as we navigate programmable rovers, design mechanical arms, and investigate nanotechnology.
